BC Family Hearing Resource Centre *presents*

Parents want current, unbiased information when facing the challenges of raising an infant or young child diagnosed with hearing loss. This resource guides families to consider evidence and choose strategies that promote communication and healthy interactions with their baby.

“An invaluable tool to help parents make the very best decisions.”
– Dana Brynelsen, Provincial Advisor to the Infant Development Program, British Columbia

"My Turn to Learn is a valuable resource for parents. It provides complete and detailed information about hearing loss and its potential impact on child development. Filled with pictures to describe specific strategies and a bountiful number of worksheets, this book offers a never-ending supply of relevant suggestions for parents. Vignettes from parents' own experiences combines with the expertise and experience of the authors to provide a comprehensive up-to-date resource."

— Arlene Stredler Brown, CCC-SLP, CEID
Coordinator, Early Intervention and Education Programs
Marion Downs Hearing Center
at University of Colorado Hospital

"My Turn to Learn is a 'must-have' for parents of deaf and hard of hearing infants, toddlers, and preschoolers, and for the professionals who work with them in early intervention. Parents will appreciate the clear writing and the compassionate voice of other parents, while professionals will respect the multidisciplinary expertise and evidence-based recommendations. Both groups will appreciate the breadth of topics covered and the family-focused, non-judgmental tone, which transcends methodological disputes and focuses instead on nurturing healthy families."

— Dr. Janet Jamieson
Associate Professor & Director
Program in Education for the Deaf and Hard of Hearing
Faculty of Education, University of British Columbia

"My Turn to Learn is an excellent resource for parents of newly diagnosed deaf and hard of hearing children, professionals working in the field, and students seeking a comprehensive textbook on the subject of hearing loss. The feedback from parents, professionals, and students since the first edition has been extremely positive. Their comments include 'easy to read' ... 'all I ever wanted to know' ... 'a great reference guide' ... 'contains information from parents perspectives.'"

— Carolyn Graves, RN, MSN
Team Leader, Hearing Loss Team
Sunny Hill Health Centre for Children
British Columbia, Canada
