

# RESEARCH STUDY MICROTIA/ ATRESIA

Are you the parent/primary caregiver of a child with microtia/atresia? Is your child age 6 years or younger?

**Participate in our research study: “Parent perspective on factors that influence use of bone anchored hearing devices for infants and young children (birth-school age) with microtia/atresia”**

We want to hear from you whether or not your child currently uses a device.

Your experience can help future families!

*You are eligible to participate in the study if you are the primary caregiver of a child aged 0-6 years with unilateral or bilateral microtia/atresia and have lived or currently live in British Columbia with your child.*

Link to survey:

[https://ubc.ca1.qualtrics.com/jfe/form/SV\\_3dAsW21OIdrF9lx](https://ubc.ca1.qualtrics.com/jfe/form/SV_3dAsW21OIdrF9lx)

Help improve services for families of children with microtia/atresia

The survey will take approximately 30 minutes to complete

Your participation in this study is voluntary – you are free to withdraw at any time

Your responses and personal information are strictly confidential

Participants will receive a \$10 gift card for Amazon in appreciation of your time
